The latter honor went to "Autodesk Inventor", but was much less well-regarded. AutoCAD has been ranked the second most popular CAD program in the world. A survey by Cadalyst Magazine in 2006 revealed that AutoCAD has the most use in the US; the "most popular" software used by the top 10% of respondents was Lotus 123 in second place, and Unigraphics in third. The same survey revealed that approximately 35% of designers use nothing else, a figure which rose to 40% for those that use less than five programs. The purpose of this investigation was to determine whether perivascular perfusion can be used for in vitro hyperthermia, and whether this hyperthermia can be used to change the function of the heart. Perfusion of rabbit hearts was carried out with a Krebs-Henseleit bicarbonate (KHB) solution. The KHB solution was heated at 40, 42, 43 and 44 degrees C and the hearts were allowed to warm for 2 min at 37 degrees C. Thereafter the hearts were arrested in aortic root perfusion with a KHB solution at 25 degrees C. During the hyperthermia and after arrest, the hearts were paced at the rate of 200 beats/min, and heart function was determined. The results indicate that perivascular perfusion can be used to heat the heart, and that heart function can be changed during this process.Q: Multiply result of find with if condition I am trying to multiply result of find with if condition but getting error, i tried all kind of solutions but that doesnt seem to be working.
