Bandai Entertainment announced a Limited Edition release of Gundam SEED The Movie and Gundam SEED Destiny The Movie on DVD on August 28, 2008. The package contains the complete remastered versions of both movies along with a bonus disc which contains the opening and closing themes of both movies. These DVD releases are limited to 30,000 copies. On August 29, 2008, Gundam SEED Memories was released on DVD in Japan. The package contains 3 DVDs. The first contains the remastered Gundam SEED series in high definition while the second DVD contains the remastered Gundam SEED Destiny series and the third DVD contains the single Gundam SEED Memories epilogue. The history of humankind is presented in two tales: one the events in the Cosmic Era as told in the Mobile Suit Gundam series, the other in the year 578 as seen in the original Mobile Suit Gundam. Gundam SEED segments are animated in two-dimensions, with backgrounds and dialogue appearing flatly against the characters in motion, giving the effect of a film strip. Certain techniques were used, such as having characters bounce off of walls to increase realism when they impact the walls in battle. Six episodes of the first season were shown in a single episode to promote the series. For most of the first season, only two episodes were shown each week on the JNN stations. Mobile Suit Gundam SEED was also a pioneer in using 3D production, animating for the first time in 3D. For Gundam SEED and most of the original series, Sunrise used digital animation to simulate movement in spaces between poses; for this series Sunrise employed motion capture technology to produce more realistic animation. The first opening and closing themes, performed by the rock band Crystal Kay, were used for the first ten episodes. The opening theme for the rest of the season was [when flower blooms again], performed by the band L'Arc-en-Ciel. In the second season, Mobile Suit Gundam SEED was rebranded as Mobile Suit Gundam SEED Destiny and it also moved to the new anime bimonthly BD anime anthology (BD Anime) animation shows. In 2004, Sunrise stated that they planned on making an anthology program to show episodes from the past Gundam series, starting with Mobile Suit Gundam SEED and followed by Gundam SEED Destiny. In 2005, they announced that this anthology would be combined with the second season of Gundam SEED Destiny to be shown on the new anime anthology program, Anime Cartoons (LC Animation Zone) on TV Tokyo, replacing Anime Era (TBS) which ended at the end of the previous year. In 2009, the Mobile Suit Gundam SEED and Gundam SEED Destiny Blu-ray box set was released in commemoration of its 10th anniversary. The original series is widely popular and has influenced the form of later widescreen anime, such as the anime of the Saint Seiya franchise.
