Memorize words free flashcards is a visual learning flashcards system which allows you to self-train with the right software components. It basically allows you to create your own set of flashcards which you can sort, add to your own flashcard library and study at your own pace. Memorize words free flashcards is also a very useful tool for those who self-study and want to see how their memory skills are progressing. How to use Memorize words free flashcards in the first place? It's possible to learn several words at a time. Creating a word takes a very short amount of time and provides you with the option to organize flashcards by subject and to fill out info such as pronunciation, example sentences and even a meaning. All of the words can be sorted by wordlist and defined (in case a word is not listed in the dictionary). Memorize words free flashcards supports voice input to the words and new words are automatically added to the training-deck. Memorize words Flashcard System is a fun and easy to use online visual learning tool that's perfect for people who want to train their memory. Memorize Words Flashcard System tracks your progress, and helps you learn a variety of words. This software application allows you to create flashcards with various features such as images, audio and video. There is also the option to work on images that have already been added. The product has a variety of different cards that can be made for a variety of subjects. You can make a card for a specific person if you want, although you cannot save those cards. Memorize Words Flashcard System is suitable for any kind of computer or device because it works best on a computer. If you are going to use this software application for the purpose of flashcard learning, you will have to create a few cards because there are no pre-made cards available. There is a number of different ways that you can use this program. It is a lot more fun if you watch videos or play games as you work on your cards. Memorize Words Flashcard System gives you the ability to create and maintain a separate deck for each subject. There is also a scoreboard that helps you keep track of your learning, and you can even keep track of your tests. You can choose to either have a single or multiple deck. It has 3 primary features: Memorize, Pass or Fail and Score. Memorize is a really cool feature. Memorize allows you to use a variety of cards with varying difficulty. It can be a lot of fun if you are trying to learn a song for a talent show, for example. If you are trying to memorize a poem, Memorize would be perfect. You could also use Memorize for a vocabulary list, or a couple of other things. You can use Memorize in a lot of different ways. If you have a really hard card, you can memorize that card first, then go through the rest of your deck. If you are trying to memorize a word quickly, you should always try to memorize the hardest card first. Passing a card means that you have learned that card. Passing a card allows you to move on to the next card. Failing a card means that you have not learned that card. It is not possible to do a test with Memorize, unless you are using the Multiple Deck feature. Memorize Words Flashcard System Requirements: Mac OS X 10.9 or higher: Windows 7
